TECHNICAL DATA-SHEET

FALL PREVENTION DEVICE

Construction: 12 x 1 plaited with coating
to improve resistance wear
and tear

PROPERTIES

Relative density: 0.97 (floating)
Temperature resistance: Melting point 150°
UV resistance: Excellent - fully stabilised
Extension: 4.5% at break (new rope),
reduces 2% (worked rope)
Flexibility: Lightweight and flexible.
Good shape retention
Chemical resistance: Excellent
Material specifications: Rot-proof, corrosion-resistant

CONSTRUCTION

1,1 mtr finishing length - grommet sling -
each end fitted with a thimble - shackle SWL 6,5 ton -
MBL: 39 tons (SF = 6 x 6,5 ton SWL).

ALSO INCLUDED

- 1 x safety warning tag for release handle inside the boat
- 1 x Lloyds certificate
- 1 x instruction manual

Produced according to MSC.1/Circ.1327 regulation
